

AMNA SOHAIB

Frontend Developer

amnasohaib2003@gmail.com • www.amnasohaib.me • [Linkedin Profile](#) • [Github Profile](#)

PROFESSIONAL SUMMARY

Front-end developer with hands-on experience building responsive, performant web interfaces across internships and freelance projects. Proficient in modern frontend technologies with a track record of delivering interactive, visually polished user experiences. Comfortable working across the full UI layer from layout and animation to cross-device optimization.

WORK EXPERIENCE

Software Design Engineer - September 2025 to Present

Teresol Pvt Ltd

Designing end-to-end UI across web, desktop, and mobile for a fintech application using Figma, covering everything from design systems to high-fidelity prototypes. Also contributing to frontend development, bridging design and implementation to ensure accurate, consistent delivery.

Frontend Developer Intern - October 2024 to February 2025

Mudirr

Built and integrated reusable UI components while ensuring cross-browser compatibility and responsive behaviour across devices. Collaborated closely with designers and backend developers, maintained code quality through version control best practices, and contributed to performance optimization efforts throughout the development lifecycle.

Software Intern - June 2024 to August 2025

Teresol Pvt Ltd

Independently explored and implemented Vue.js through a self-initiated project, demonstrating proactive learning beyond assigned responsibilities. Integrated XState for finite state machine-based state management, and set up an Express server with MongoDB to handle backend data flow.

EDUCATION

Msc Computer Science - Starting from Sept 2026

University of Copenhagen

Bsc Computer Science - Sep 2021 to July 2025

COMSATS University Islamabad, Islamabad Campus
3.48 CGPA

SKILLS

- **Frontend:** React JS, Next JS, Vue JS, Bootstrap, TailwindCSS, Framer Motion, Three JS, GSAP
 - **Backend:** Node JS, Express, REST APIs
- **Mobile:** Flutter, React Native
 - **Tools:** Git, Github, Postman, Figma

PROJECTS

SpatiumVerse

Tools Utilised: Next JS, React JS, Three JS, AR JS, TailwindCSS, MongoDB, Supabase, Express

An interior designing 3D and AR based web platform where users can interact with design models within 3D spaces and also save, share, collaborate, and discuss these designs with other users.

Deem Your Mood

Tools Utilised: Next JS, Tailwind CSS, Lucide React, Figma

An emotion detection app that detects and visualizes human emotions through AI-powered analysis.
